

Executive Weekly Business Review (WBR)

Date: Wednesday, June 3, 2026 | **Author:** CEO Office (AI Automated)

Security Level: Highly Confidential - Executive Eyes Only

1. Executive Summary

The business continues its strong trajectory, tracking toward a total revenue of **\$8.77M** across the current recorded window. Overall growth is robust at **8.0%** month-over-month (as of March 2026). While partner pipelines are highly active at **\$9.1M** and client satisfaction remains stable with an average NPS of **52.4**, we face critical operational headwinds due to delayed projects. Active workforce utilization stands at **83.1%**, indicating tight capacity constraints in Engineering.

2. Business Highlights

- **Revenue Growth:** Reached **\$1.70M** in monthly revenue for March 2026, up from \$1.20M in October 2025 (a **41.7%** total rise over the 6-month period).
- **Partner Conversion:** Partner D has successfully closed a contract valued at **\$900,000**, reinforcing sales momentum.
- **Customer Retention:** Acme Corp, Zenith Tech, and Nova Systems are securely locked in "Retained" status, expressing high satisfaction.

3. Key Risks

- **Project Delays:** Two core projects are currently delayed (Project Beta and Project Omega), leading to a combined potential slip of **75 days** and jeopardizing **\$1.65M** in budget.
- **Client Relationship Risk:** BlueWave and Orion Ltd are flagged in "**At Risk**" status due to declining satisfaction metrics.
- **Workforce Bandwidth:** Engineering utilization is at **88.8%**, indicating high burnout risk and zero buffer capacity for incoming initiatives.

4. Operational Bottlenecks

- **Project Omega (Delayed by 45 Days):** Currently at **35% completion** despite having a budget of **\$900,000**. Bottleneck identified as resource shortfalls in Engineering.
- **Project Beta (Delayed by 30 Days):** Stuck at **45% completion** with a budget of **\$750,000**.

- **Hiring Inefficiencies:** While employee headcount stands at **9 active members**, only **3 new hires** were onboarded in early 2025, lagging behind project requirements.
-

5. Financial Observations

- **Margin Analysis:** Net profits reached **\$500,000** in March 2026 on \$1.70M revenue (**29.4% profit margin**). Margins have improved from **25.0%** in October 2025, driven by operational efficiencies.
 - **Budget Risk:** A total of **\$1.65M** out of **\$3.05M** total budget is tied up in delayed or at-risk projects, representing **54.1% of capital at risk**.
 - **Partner Pipeline:** Active partner pipeline stands at **\$7.50M** (excluding Won/Lost stages), providing strong sales coverage.
-

6. Workforce Insights

- **Department Headcount:** Engineering remains the largest department with **5 active members**, followed by Sales (**2**), HR (**1**), and Finance (**1**).
 - **Attrition:** Total attrition is recorded at **10.0%** (1 inactive employee, Vikram Patel, Engineering, departed).
 - **Departmental Utilization:** Engineering is operating at a critical **88.8% average utilization**, while Sales is at **81.0%**, and HR is at **70.0%**.
-

7. Client Insights

- **Client Satisfaction:** Overall average CSAT stands at a strong **7.98 / 10**.
 - **Net Promoter Score:** Average NPS is **52.4**. Top-performing client relationship is Nova Systems (NPS: **70**, CSAT: **9.1**).
 - **At-Risk Clients:**
 1. **Orion Ltd:** NPS **35**, CSAT **6.8** (Risk: High).
 2. **BlueWave:** NPS **40**, CSAT **7.1** (Risk: Medium).
-

8. Recommended Actions

1. **Resource Reallocation:** Shift 1 Engineering resource from Project Gamma (currently at 80% completion and "On Track") to Project Omega to resolve the 45-day delay.
 2. **Client Health Remediation:** Appoint the Sales Account Manager to conduct immediate executive review sessions with Orion Ltd and BlueWave to address CSAT issues.
 3. **Targeted Hiring:** Open headcounts for **2 Senior Full-Stack Engineers** immediately to ease the Engineering utilization bottleneck (currently 88.8%).
-

9. Priority Action Items

- ■ **[HIGH PRIORITY]** Schedule a project recovery workshop for Project Omega. (Owner: Project Director / Timeline: 48 Hours)
- ■ **[HIGH PRIORITY]** Conduct client intervention meeting with Orion Ltd. (Owner: VP of Customer Success / Timeline: 3 Days)
- ■ **[MEDIUM PRIORITY]** Deploy HR recruiting pipeline for engineering roles. (Owner: HR Lead / Timeline: 7 Days)
